NZ Wide Delivery

Why you'll love Movapod

We design and manufacture our pods here in New Zealand from the ground up, by a team of dedicated professionals. Our team keeps everything simple and hassle-free for you, from our first contact to the delivery of your pod.

NZ Designed and Built

Our pods are crafted with care and quality needed to stand the test of time.

Designed and built to NZ code by licensed builders, plumbers and electrician's. All pods with a kitchen and bathroom come with a Council Code of Compliance Certificate.

- Architecturally designed
- Built to NZ building code by licensed builders
- Council Code of Compliance Certificate

Stylish and Customisable

Get a great looking architecturally designed pod that is customised to your style, by choosing:

- Pitched or flat roof
- Can be connected to a wooden pile foundation, screw piles or built on a trailer
- Kitchen colours
- Exterior and interior colours
- Comes ready to be connected to drainage and power, or an off grid kit is available.
- Modular, our pods can be connected together

Kingfisher

From **\$149,000***
Including GST. Excluding Delivery

 **1 Bed**  **1 Bath**  **1 Kitchen**  **24m² | 8m x 3m**

Council Code of Compliance Certificate (CoC)
Electrical & gas certificates

Kingfisher is our smallest but comfortable, single story, tiny home.

It features a large bedroom with a generous amount of window for amazing views, an ensuite, and a spacious open plan kitchen-living area.

Creating a convenient fully self contained space.

As standard it's built on skids which can be connected to pile foundations and plumbed into the ground, or as an upgrade can be built on a trailer.

* All prices include GST and are ex Movapod Factory. Prices are subject to adjustment. Price includes building consent for manufacturing. Excludes delivery, foundations, site works and resource consent if required.

Want Something Different?

We're specialists in transportable buildings, tiny homes and cabins. We can customise our plans to your needs.

Our Process is Faster and Cost Effective

A prefab home can be built more cost effectively and faster than traditional homes and we are here to help you every step of your journey.

1. Select & Specify

We can help you choose the right size and model to suit your needs, specify the layout and features, and we'll send you a quote.

- Consultation and preliminary design
- Contract offer and acceptance
- 50% deposit paid

2. Build

With innovative construction techniques we combine the best materials with the best furnishings to create tiny homes of exceptional quality and affordability.

- Site visit
- Detailed design, planning and consents
- Construction
- 25% progress payment paid

3. Delivery

Approximately 8-12 weeks from order confirmation, your new Movapod home will arrive by truck, with you dealing directly with our team throughout the whole process.

- Delivery
- Move in!
- Final 25% payment paid

Great finance options

Using our finance partners is the easiest way to make your tiny house dream come true. Whether it's financing for pods fixed to the ground or lending for Transportable Homes.
